Featuring the trial was the probe of the motive of Ragsdale and Regular Officer B. R. Hutcheson in attempting to arrest Smith when they suspected that he ws ain pos on of a quantity of liquor and after they had observed his alleged disorderly actions. The points was stressed by Prosecutor Wood in summing up, that the two officers had able." been aware of both facts for two hours or more before deciding to arrest Smith. He expressed doubt as to whether the two officers wanted to arrest Smith as much as they wanted to apprise themselves of the conditions pertaining to Smith's supposed possession of liquor.

Presecutor Wood also stressed the

Presecutor Wood also stressed the fact that neither Hutcheson nor Ragsdale tried to obtain a search warrant for the purpose of entering and searching Smith's home, though they had ample time. Mr. Wood fook occasion at this point to roundly denounce citizen-officers as being unfit to exercise the functions of police officers.

"They should never have been commissioned," he declared. "If you let this young man go without binding him over to the grand jury you will virtually license him to shoot any man that does not hold up his hands when approached by him for whatever cause. It means that no home in Atlanta will be safe. If an officer is guilty of creating a disturbance when his duty is to maintain law and order, and if as a result of it he kills a man, he is more reprehensible than any other person."

in Controversy With Senator Owen-Senator Alleges Government Profiteering.

Washington, December 2 .- An appeal by Senator Owen, democrat of Oklahoma, to the federal reserve board for general lowering of its rediscount rates, brought a response tonight from W. P. G. Harding, the board's governor, which declared that the organization was "reluctant to discuss proposed appearance has brought to light the changes in discount rates" because such discussion would "have an unsettling effect and give those best in position to form an opinion as to the probable action of the board an advantage over those not thus situated."

Senator Owen's letter said that reserve bank earnings from present per cent per annum, "putting, the government in the position of profiteering," and in some cases "absolutely stopping legitimate distribution."

Governor Harding countered with the statement that the senator was "ignoring the economic forces govthe movement in prices which for months past have been in evidence all over the world."

"The board believes the unfavorable conditions which are now the subject of so much complaint wer inevitable." Governor Harding added, "and could not in any event have been long deferred. It confidently asserts that but for the precautionary measures taken sev eral months ago, condition would be far worse than they are, with the prospects of stabilization and

revival much more remote." To the profiteering charge, Governor Harding retorted that the profit of reserve banks, after paying the government franchise tax, 'would be not 150 per cent or more, but barely 7 per cent on their lia-bility to stockholders."

Senator Owen characterized the board's policy as "indiscriminate deflation, largely due in my opinion, to the lack of vision of the big New York kity banks." Governor Harding replied that the board "hopes that even though your views and those of the brard may not coincide in all respects, you may later on reach the conclusion that in the light of subsequent events, the board's policies are sound."

Waiting on United States. The delegations of the British iominions have been studying how to approach the assembly on this uestion, The eventual proposal to eliminate Article 10 is some what compromised by the general understanding that consideration of all proposed changes should be postponed until studied by a spe cial committee. This understanding, however, came largely from the anxiety of the delegates not to precipitate revision until the attitude of the United States under the new government is known.

Leon Bourgeois, of the French delegation, is perturbed lest the investigations of the committee should lead it to consider alterations involving a revision of the treaty of Versailles, and he de-manded today that it be understood that the committee should declare itself incompetent to consider any amendment to the covenant that involved modification of the treaty. The close of the debate brought

a moment of great suspense, when Senor Pueyrredon, of Argentina, who failed to take part in the debate, voted alone against the resolution rejecting consideration of amendments to the covenant at this session. The presiding officer, M. Hymans, besitated as if unable to believe that a single delegate would prevent unanimity.

State to Present Affidavits.

Macon. Ga., December 2—The state will present affidavits in "sufficient number to establish a case," when the hearing for bail for those arrested in connection with the death of Fred D. Shepard, comes up on next Tuesday, according to Solicitor General Charles H. Garrett.

W. A. McCiellan, widely known criminal lawyer, who has been engaged to assist in the prosecution, was in Abbeville today collecting these affidavits, it was stated. Four attorneys are now figuring in the defense of Mrs. Annue Cutts, former Representative Charles L. Bartlett, of this city, and D. B. Shepard, of Houston county, were Thursday branded as "the wildest-eyed, maniacal hallucinations I ever heard of outside of a padded cell," by Mrs. Jone Henry, who is a sister of Mrs. Pauline Elmer, and is now held in custody at her home in Perry on a charge of complicity in the death of the peach king.

complicity in the death of the peach king.

Mrs. Henry made the following statement exclusively for The Constitution on Thursday in a letter expressing her appreciation of the attempt made by this paper to present all sides of the Shepard case now pending a preliminary hearing on December 7.

"I have not seen any blood-curdling headlines in your paper and I really believe many people in Atlanta and elsewhere understand that this whole thing is a 'frame up.' for the organization of the orchestra, which will include musicians from some of the most noted orchestras in this country and Europe, some of them, like the director, himself, coming direct from the Capitol theater, in New York, the largest and one of the most notable picture houses in the country.

From the musical standpoint, it is particularly interesting also that Mr. Leide will prepare the scores which will provide musical background for the pictures. These will most frequently be composites, made up of excerpts from standard works in opera, symphony, ballet, or from whatever source can be made, most available. More interesting still, when he cannot lay his hands on appropriate music among standard works, he will himself compose the musical commentary on the films as they are unreeled. In technical terms he will provide a perfect synchronization with music of the titles and descriptions of situations on the screen.

Officers Raid The raiding officers were complimented by Assistant Chief Jett fo Eight Arrested ton.

"The sandpaper found in the room," Chief Jett remarked, "makes the raid look as though it will disclose more about crooked gambling."

Officers Believe Poker Game Interrupted in Downtown Hotel Was Crooked.

In fact they were arranging for an agitation in favor of Irish home rule to commence after the first of January, and to extend all over England, in case Henderson should fail. Great mass meetings in the big centers and an intensive pamphlet propaganda campaign controlled to the control of t otel was disturbed Thursday evening when Lieutenant of Detectives Waggonen, Police Commissioner Andy King and Detective Doyle asked for admittance and hat they were officers.

Government May Interfere.

It is not believed that the government will permit the labor party to succeed in this important feat of mediation. True, Henderson may never succeed in bringing the matter to the point where a mediator could function between the government and Sinn Fein, but even if he should, the government probably would refuse to negotiate with what it condemns as "murder bands."

The labor party leaders do not believe the government has caught the real terrorists in its roundups of Sinn Feiners, but suspects that the leaders who have been arrested were not the violent ones, but are nevertheless, willing to endure arrest and whatever else follows just for the protection of the true leaders. Thus the arrests to date are regarded by the labor party as being of no value in relieving the situation. As a result J. C. Hampton, who occupies the room, was arrested and placed under \$2,000 bond, while seven others were arrested and placed under \$500 bonds each. They are W. H. Mills, 73 Larkin street; A. J. Simpson, 7 Trumlin street; Y. A. Eadon, 80 Culberson street; A. C. Thompson, 47 Langhorn street; H. A. Dodson, 424-D Central avenue; R. D. Moss, Princeton hotel, and F. A. Morgan, College Park.

SOLEMN THANKS SENT TO WILSON BY THE LEAGUE

For His Acceptance of Invitation to Act as Mediator Between Turks and Armenians.

Geneva, December 2.—(By the Associated Press.)—The Dispatch of a solemn message of gratitude to President Wilson for the way he responded to the appeal of the council of the league of nations to act as mediator between the Armenians and the Turkish nationalists, was proposed to the assembly of the league by Paul Hymans, its president, shortly after today's session of the assembly began.

After the opening ceremonies, Mr. Hymans announced Mr. Wilson's offer to mediate in Armenia, and read the council's reply. That body informed Mr. Wilson that it is asking the Brazilian and Spanish governments, which yesterday also offered their services as mediators, to communicate direct with Washington re garding the means of action.

The reading of Mr. Wilson's message drew hearty applause from the sparsely filled house. A large proportion of the delegates are suffer ing from colds and were not present at the beginning of today's session

M. Hymans also proposed that nessages of gratitude be sent to Brazil and Spain. Lord Robert Cecil, representative of the Union of South Africa, rose and said thanks were also due the

French delegation, particularly Rene Viviani, whose eloquence, he declared, had inspired "this merritorious effort to save Armenia." Text of Reply to Wilson. The text of the reply made by the council to President Wilson's aceptance of the role of mediator in

the Armenian question, which was dispatched to Washington this mornsigned by President Hymans, of the assembly, is as follows: "In the name of the council of the league of nations I thank you for your telegram of December 1 in which you agree to act as mediator

between the Armenians and the Turkish nationalists and add that you will nominate a representative for this purpose. "The council is deeply rejoiced at and grateful for your decision The council asked me to inform you

that the Spanish government declares itself ready to participate in any action of a moral and diplomati character in support of Armenia and that the Brazilian government announces that it is ready to take part alone or with other powers in putting an end to the present situation in Armenia. The council is, therefore, requesting these two governnents to communicate directly with you as to how co-operation in this work can best be arranged. Negotiations can be opened immediately with the Armenian govern-ment at Erivan.

"As regards the Kemalists (Turhish nationalists) the council is taking steps to find out the most effeetive method of getting in touch with them and will inform you fur-

Moral Support Promised. Sir Eric Drummond, secretary general of the league of nations, has sent the following message to

President Wilson expressing the

gratitude of the assembly at his "The president read to the full assembly this morning your telegram, and the reply sent by the council to it. The assembly welwith enthusiasm and asks me to convey to you its unanimous asenvey to you its unanimous assurances of the complete moral support of every member of the league in the great mission you have undertaken, and I beg confidently to declare that the opinion not only of the people of the United states, but of the whole civilized world is with you in your endeavor to secure that the tragedy of Armenia shall finally cease."

POWER OF PRESIDENT BEHIND MEDIATOR.

Washington, December 2.-The representative to be chosen by Presrepresentative to be chosen by President Wilson to mediate between the Armenians and the Turkish nationals will act for the president of the United States and not Woodrow Wilson personally, it was said today at the state department. This statement was made in response to inquiries as to the exact meaning of the president's declaration in his letter to the league of nations that he

SALTS IS FINE FOR KIDNEYS, QUIT MEAT

Flush the Kidneys at once when Back hurts or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which closs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness sleeplessness, biadder disorders come from sluggish kidneys.

The moment you feel a dull achin the kidneys or your back hurts, or if the urine is cloudy, offensive full of sediment, irregular of passage or attended by a sensation o scalding, get about four ounces of Jad Salts from any reliable phar, macy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. would be glal to proffer his "personal mediation."

State department officers declared that the American mediator, who is yet to be chosen, would have all of the influence and prestige of the United States government behind him in his mediations. It has been made clear by the president, however, that moral influence is the only kind which the United States can use in the situation.

President Wilson is awaiting the official acceptance of, his offer by the league of nations before appointing a mediator. He also is awaiting the offers of Brazil and Spain to join with the United States in the effort to restore peace to Armenia.

Retains Counsel to Fight Petition, Which He Denounces.

Denouncing the service now being given by the Atlanta Gas Light com-pany, and characterizing as outpany, and characterizing as outrageous the request of the company property for an additional rate increase, Dr. L. N. Huff, well-known Atlantan and a member of the committee appointed by the Highland avenue mass meeting held in connection with gas service conditions, Thursday night announced that he has at his own expense retained counsel to appear before the railroad commission to fight the petition when it is considered.

Dr. Huff added that Owen Jöhnson and Scott, will act as his attorney, and said that he will co-operate with other attorneys representing partrans.

His statement in part was as follows:

Almost before the ink is dry on a recent order by the railroad commission authorizing an increase of the gas rate from \$1.15 to \$1.45, and at a time when thousands of housewives all over Atlanta are freting themselves siek with cooking ranges rendered practically useless by sorry gas or low pressure, or both, the gas company goes back to the railroad commission with another petition for increased rates, this time asking to be allowed to charge \$2.15.

It is the most brazen piece of effrontery in the career of a public utility management who have lately given frequent evidences of their contempt for public opinion and public rights.

less justification for hearing this perition.

The gublic has paid for practically all the property owned by the gas company, and unless things are changed the public will pay for all enlargements in the future. More than that, the public not only must pay for these enlargements, but pay in advance; and must endure the wretched insolvenience of a near gas famine while waiting for the machinery to be built and installed.

Thus the mass meetings of indignant patrans of the gas company have been officially ignored. The management of the company have detailed spotters to go to the meetings, but have sent no speakers. They have not been represented by responsible spokesmen, but by sleuths and Peeping Toms.

Their reply to these meetings is like a slap in the face. Instead of telling the people what they are doing, if anything, to render adequate service, and why these steps were so long delayed, they tell the railroad commission that it becomes again their painful duty to run their fingers a little deeper into the public purse.

The subcommittee considering applications of smaller states for membership in the league has decided to report favorably upon the admission of Costa Rica, but unfavorably on Azerbaijan and Litchenstein. This body will recommend to the parent committee that a favorable report be made upon the proposition advanced by President Motta, of Switzerland, which would provide that states not having sufficient importance to become full members of the league would have a special status.

Quitman, Ga., December 2 .- (Special.) - All sessions of the South The new membership campaign going on at the colored branch of the Y. M. C. A. is meeting with a hearty response, leaders report. New members are taking advantage of the Special rates which last for the next week. The goal is to boost the membership to 2,500. This will be the largest in the United States among colored people, there being cally one other colored "Y" in the country with a larger membership than Atlanta.

This membership campaign is unlike the one held last spring in that each member is required to bring in at least one new member, which counts for so many point. The present membership now stands at 1,941 and each day sees the figure grow.

Chance of Virginia-Georgia Fray QUINTETS

Until yesterday there was a fairly good chance of Atlanta fans witnessing the annual battle between the University of Georgia and the University of Virginia in 1921, as officials at both colleges had expressed a keen desire to have the game staged at Ponce de Leon. Yesterday, however, the "V" club of the Old Dominion university adopted resolutions indorsing the custom established years ago, prohibiting Virginia teams from playing on neutral gridirons, and recommendations of this body are usually favorably co. Ikey came to this country from Stockholm and won instant recognition when as a newsboy of The New York World, he voted the prohibition ticker, the first time on record when a newspaper salesman of Gotham voted for anything, save to abolish night courts and police fines. Ikey assests a policeman is one of the non-essentials and is in hearty favor of putting every coper in the nation on a desert isleletting them arrest each other until the last one disappears. Then, Mr. Isaacstein declares, a torch should be applied.

The newsies have never become accustomed to the cognomen that proud parents pinned on Percival, nowever, and they might object to him on those grounds. It is a matter of record than when he first chipped his name to the salesforce of The Constitution, the police reserves and the ambulances ran into each other hurrying to the scene. Percy recovered, however, despite the rough reception he was handed, and there are few marks left on his body that hint of his harrowing experience.

picked the four to represent Emory in the coming cross-country meet between all Southern Methodist colleges, to take place December II at Emory. They are Captain Stokes, Enloe, Jones Colwell, Harper, Rochelle, Joe Harvard, Wilkinson and Lewis. From these men the team of four will be selected this week, the selection to be made from the immediate results of each man's work.

Coach Smathers carries his men through a hard practice every afternoon, now, as the event draws nearer. The distance between Emory and Decatur is covered once a day in order that the men may been in good shape. The course lies tween the campus of the university, around the DeKalb county courthouse and back, a distance of somewhat over four miles.

At the present time it is hard to say just who will be selected for the four places, because there are many probabilities, and the different members of the team are so nearly equal in their athletic abilities, that a guess would be likely to go wrong. One place is sure, that of Stokes, who continues to Laird, captain, and Teo Yeager are the only vets to answer the call of Coach Boone. The most promising of the many aspirants for places on the team are Minhinett, Boswell. Peters, Robinstein, Freeman, Palmer, former center on the Marist quintet: McPhail and Garlington.

The Fulton high boys have also started work and they have already played a number of games. They have played several out-of-town games and in each case they have returned the winners. half of one per cent to be levied in 1921.

Mr. McCalley, who was elected to the board of education over Garland Cooper Wednesday, received in the final consolidation 1,631 votes to 741 for his opponent. He attributed his success to the support given him by the Parent Teacher association and said that he would advocate free text-books for Atlanta school children as well as elimination of basement class rooms. He was elected to fill the unexpired term of Fred E. Winburn. who resigned as representative of the seventh and tenth wards.

Mayor Key made no definite statement as to the new high school, but said that he believed it best at present to keep the Tech High school plant entirely separate from the reat of the system rather than adopt the composite System favored by so many. This plan, he said, was to have the several high school buildings located in different sections of the city embracing all subjects of study.

Councilman Martin appeared before the committee and added his approval to that of the members in saying that Mr. Lee had never requested a raise but that his work had been strenuous, often carrying him late into the night for its comni lon. Mr. Lee was mentioned as one of the city's most valuable and efficient employes and there was no dissension to the raise.

Other requests for increased salaries were adversed by the committee, who in their discussion expressed the sense that there were several departments in which raises would be just, but that the financial stringencies in which the city finds itself precludes the possibility of further increases.

A probable change in plans of the war department with regard to Camp Gordon is indicated in the ordered discontinuance of advertisements runnius in Atlanta papers offering 136 buildings at Camp Gordon, composing the old central officers' training camp and adjacent buildings, for sale.

Several weeks ago a message was received by Senator Hoke Smith that the war department did not intend "scrapping" Camp Gordon, and coincident with that announcement advertisements were being published by the depot quartermaster offering much of it for sale.

HELPING THE FARMERS.

At the conference of governors, at Harrisburg, Pa., this week, the governors and governors-elect of more than half of the states of the union, agreed that "something must be done" to help the farmers of the country out of their trouble.

That something is wrong with the present situation, as it affects the agricultural interests of the country, is beyond question.

What it is, nobody, perhaps, knows; but whatever it is, the cause should be ascertained and the remedy found and applied.

There is something wrong, for instance, when wool is so cheap that it hardly pays the cost of dipping it from the sheep's back; then hogs are so low in value that farmers are dumping them onto the glutted market simply to get rid of them; when cotton is quoted at prices that are below the cost of production; and yet, at the same time, when woolen and and awaits trial." cotton goods, bacon, staple groceries, implements, fertilizer, etc.practically everything the farmer has to buy-are selling at retail on into the court room in which the virtually a war-time price basis.

anyone conversant with general conditions, to reconcile the existing discrepancy between the prices that the farmer receives for his raw products and the prices charged for those same products, or their derivatives, in the retail

It is reassuring to note that such a powerful organization as this conference has assigned itself to the task of finding the trouble and the remedy for it .. Relief must and will come

through co-operative, constructive efforts on the part of all working together toward the common objective, and to this end congressional leaders of both parties now seem to be working together to frame such legislation as may be necessary to meet the demands of the situation.

The time in which this may be done has been extended to the first of January, so that during the current month all former war risk insurance policies may be reinstated without the necessity of their holders undergoing medical examination.

The government urges the reinstatement of every lapsed policy. and is willing to protect every holder of these policies at a cost of from 30 to 40 per cent less than similar protection can be obtained from old-line insurance.

In order that no ex-service man may be barred by present physical disability, all men who have let their insurance lapse may secure reinstatement regardless of their

OBREGON'S GOOD START. The most significant feature of the inauguration of President Obregon as head of the Mexican government was the spirit of patriotism and general cordiality and good-will that was evident, not. only in official circles, but among the masses.

Without the pomp and splendor and ostentatious military display customary on similar occasions in the past, General Obregon was inducted into office as a man of the people, as a statesman, rather than as a soldier, the inaugural ceremonies being marked by their lemocratic simplicity.

It was the fourth time in Mexco's history of ninety-nine years that the executive power in the epublic has been transferred as a result of a peaceful, orderly elec-

The inauguration was made all the more impressive by the attendance of the governors of several American states, either in person or by official representatives.

It is to be hoped that the peace ow prevailing in Mexico will prove lasting, and that the United States in particular, of all of Mexico's friends and well-wishers will do all that is within its power to establish friendly relations with the Mexican government and help the country to regain its footing as a great nation of law and order, industry and progress.

This country should extend it nearty co-operation in Mexico's effort to stamp out lawlessness and revolution, and the best service we can render to that end is to extend our recognition to the new government.

"LUST FOR BLOOD."

"In the lynching states," remarks The New York Herald, commenting editorially upon the latest demonstration of mob violence in Misstssippi, "lust for

blood is the spirit of the lawless.' The circumstances attending that gruesome piece of outlawry tend to justify The Herald's conclusion.

"Ordinarily," as our contemporary argues-

"a lynching mob in Mississippi or any of the other states which compete lawlessness takes action at one of three times; when the accused is captured, when he is being taken to jail, or after he has been jailed

But in this instance-

"The mob at Tylertown was of a more enterprising sort. It broke accused was being tried, roped him, ged him through the streets and, at the end of a spectacular parade, hanged and shot him."

Here was a case in which the

prisoner was actually on trial. A special term of court had been called expressly to dispose of his case; there was no reasonable possibility of his escape, no danger of legal delay.

The alleged culprit was being ried for a crime the penalty of which is death, under the Mississippi law, so it would naturally follow that if his guilt could be proven society would quickly be rid of his presence; otherwise, no right-thinking and humane citizen would want his life destroyed.

But the mob smelled blood. Its passion would not be stayed.

It battered down the doors of its own "temple of justice" in its frenzied clamor for a human life. Not only the judge, but even the husband of the complaining witness implored the would-be lynchers to let the trial proceed-not to interfere with the orderly, operating, processes of the constitutional law.

But Justice was brushed aside! Respect for the law was trampled lynching states lust for blood is the spirit of the lawless?"

The law didn't kill the treating habit. It took booze at a dollar a drink to do that.

Cherokee Merchant Would Solve Problem By Shortening Crop

Editor Constitution: The ren dy for the south, as I see it, is to

cut the cotton acreage 50 per cent Can this be done? It certainly can be done.

Some will say, how can the co ton acreage be cut one-half when we have so many people who are engaged in the production of cotton, many of whom are negro ten-ants who never read a newspaper and rent their land from white men for so much cotton? We also have a great many white tenants who will say they have to plant cotton in order to meet their jumping exin order to meet their running ex-penses of making the crop.

This tenant problem is one thing that will have to be taken into consideration when we talk of cutting the cotton acreage one-half.
Then what is the wise, business,
method for the landholders to
adopt? I think they should have
a heart-to-heart talk with their
tenants, telling them that they can not make a living for their family by raising cotton at the present prices and nineteen tenants out of twenty will agree with their land-lord. If this is true, the respon-sibility of cutting the cotton acre-age will be, to a great extent, upon the landholders.

speculator in cotton will give you the horse laugh, when you talk about cutting the cotton acreage. They don't believe we will do it, and from their past experience they have very good grounds for no believing much in this talk. rather think when those bear spec ulators see that the landlords, bankers and supply merchants all begin to sign a contract to cut the cotton acreage 50 per cent in 1921, they will be more careful about selling October, 1921, cotton. In fact, I believe they will cover what they have already sold.

Well, what is the object of cuting the cotton acreage one-half in 1921? Just simply to save the south from financial ruin.

We have produced this year about 12,000,000 bales of cotton at a loss of \$50 to \$75 a bale. The cottor mills say there is no demand for the manufactured goods and that they are having to shut down their mills on account of a lack of orders. So we have found out after it is too late that we have produced a crop that the world does not need, and this great change has all come about in the last five has all come about in the last five has all come about in the last fiv months. We were all misled last spring, as we were told that the world was naked and even a 15.000,000-bale crop of cotton would bring a good price. We took the bait and planted all we could, and bought high-priced fertilizer, high-priced mules, paid high for labor and everything that went in to making the crop. Now, when settling time rolls a gound, we are told that there is no demand for months. We were all misled las no demand our cotton, only at a price of about one-half of what it cost to pro-duce it. Do the southern cotton producers intend to be caught producers intend to be ca again in the same trap? Only way to avoid it and that is by curtailing our cotton acreage and raising a big food crop.

The southern cotton farmer should listen to our leaders who have made a study of this ques-toin. I believe that one of our great mistakes is in not following advice of our leaders as we There is not a doubt, and no

(Theatrical folks use these phrases to differentiate between the "big time" and "small time" vaudeville.) (Since that time the two leading "three-a-day" houses have probably enjoyed the best business ever furnished any similar theaters in the city of Atlanta. And there is no reason why they should not continue to receive this same, Tine patronage because Atlanta is a much larger city than it was four years ago, and as "small time" vaudeville the public could not receive more than it does now for its money.

And this communication, by the way, is no reflection on those commendable enterprises. As a class, I repeat, they give us "the best the market affords."

Of these cities, only three are larger than Atlanta and even the smaller mentioned cities seem to furnish excellent patronage. Without a doubt Atlanta would welcome and surport heartily such an enterprise. It was proven in the old days when we read "The Forsyth, Atlanta's Busiest Theater" on most all the billboards and newspapers. It was indeed the busiest theater in the city and gave an entertainment of real value. Hundreds of Atlantans seldom missed a single change in program. Now these same people only occasionally attend our present vaudeville performances and many not at all. I get these facts from my own and friends' experiences. Political Attitudes Reversed.

The afternoon's session was en-liftlened by expressions from two governors which reversed the ordinary political attitudes of the traditional northern republican and southern democrat.

Speaking on the subject of "decentralization, Governor Carey of Wyoming deplored what he called a growing neglect of "states rights."

The federal government through cervital activities was "retarding development." he declared.

Immediately Governor Harding took the floor with the suggestion in that all other republicans "turn their faces to the wall, permitting our democratic friends to chuckle." infernal regions.

It is pointed out that despite the general alarm that was given following the wire-tapping expose, all of the "home talent" remained on their native heath while the betterorganized foreign faction disappeared to a man with the single exception of Abe Powers, R. B. Kelley, L. P. Coe and Lonnie Allen, who were taken when the solicitor general's force raided the supposed gambling house at 49 1-2 Central aveand 35 1-2 South Broad street. Kelley, Coe and Allen, along with Americus Lee, a negro, also rounded up in the raid, were arraigned in superior court Thursday, but on mo-

tion of their counsel, Sam Hewlett and John McClelland, all the cases were continued to a day next week to be fixed by the solicitor general. Mr. Boykin announced that he would endeavor to try the cases together, while Mr. Hewlett, of the defense, was not ready to say whether or not he would ask for a

The determination to bring Powers to trial Monday and to bring Mrs. Powers' case before the grand jury Friday were made practically at the same time. Earlier in the day counsel for Mrs. Powers had demanded that the solicitor general order her release from custody. manded that the solicitor general order her release from custody.

In case of refusal or a determination to hold her simply as a witness, her lawyers declared their intention of instituting habeas corpus proceedings. The solicitor general informed them that he would give them a decision in the afternoon. About 3 o'clock he informed Mr. Hewlett that he had determined to bring Mrs. Powers' case before the grand jury and order her transfer to the Tower.

He did not indicate what line the grand jury inquiry would take. However, in the trial of her husband, testimoney was adduced through the clerk at, the hotel at which the Powers pair stopped that Mrs. Powers handled the family finances, and speculative gossip was that it would be along this line that the investigation would be directed.

ascond theory was advanced that It was likely that the solicitor general would endeavor through Mrs. Powers' case to adduce a connection between the men arrested in raids on the supposed organized houses and Floyd Woodward, under indictment for gaming, who disappeared for parts unknown before warants could be served on him.

Chief of Detectives Poole, however, declared that though every effort had been made to trace any possible connection Woodward had with the operations in question nothing had been found to lead to the belief that he had ever appeared actively at either the West Peachtree, the Central avenue or the Broad street place.

When Powers is brought to trial on the Davis charge, his attorneys indicated that their defense will be a complete denial of everything that Davis says, with the possibility that they will attempt to show a sinister motive on the part of Davis.

Later he faund out, he declared, that the bullet entered the left shoulder. The wound on the jaw was caused Packers Explain Wholesale Prices. Packers Explain Wholesale Prices.

Explaining why the wholesale price has falled to fall as fast as the live stock quotations, an official of one of the packing houses said:

There are two features of the comparative price situation that should be borne in mind. One is the price of by-products; the other the cost of labor. The average consumer naturally thinks of meat animals only as they affect his table. He sees that the price of hogs has dropped and he thinks, of course, that meat should follow at once.

"Only about 16 per cent of the live "Only about 76 per cent of the live hog is meat. The other 24 per cent consists of waste and by-products, which just now have little value. Also in the carcass there are parts that must be sold for low prices. The entire carcass does not bring pork loin or fancy smoked ham prices, for example.

"Labor Is now receiving much greater rewards than it did in 1913.
The total increase of plant wages "Only about 76 per cent of the live Freater rewards than it did in 1913. The total increase of plant wages has been more than 170 per cent. "Thus, though there have been substantial decreases in wholesale pork prices, these price drops cannot quite equal the fall in live animal prices, because of the conditions outlined."

APPEAL FOR FUND TO BRIGHTEN XMAS OF AGED SLAVES

Following an annual custom dating back for more than ten years, the Ex-Slave association of Atlanta is requesting donations for funds, clothing, provisions and fuel to be used to brighten the Christmas season for ex-slaves and aged poor of the city.

There are no colored people more highly thought of than are the exslaves of the old south, it is pointed out by the association, which asks all citizens, both white and colored, to show their appreciation of the loyal and faithful service which they have rendered. All donations should be made through the Ex-Slave association, \$228 Fort street, Done Ivy 2254.

Officers of the association are Rev. W. J. Williams, president; B. R. Holmes, secretary; J. A. Lindsav, chairman finance committee, and C. G. Gray, treasurer.

Come-hear Rachmaninoff on the New Edison

RACHMANINOFF has not only made Re-Creations for the New Edison. He has also made recordings for one of the standard talking-machines.

We are glad to announce that these talking-machine recordings may now be heard. We want you to hear them-and compare! Determine for yourself which gives you the real Rachmaninoff.

Let us play Rachmaninoff's Edison Re-CREATIONS for you. Mark how clear, how true the piano tone. See how every note in his runs, every accent in his interpretation, every shade in his pedalling is perfectly RE-CREATED.

This was proved by a test made at Mr. Rachmaninoff's home in New York City. He played the Second Hungarian Rhapsodie (Liszt) in direct comparison with the RE-CREATION of his perform-

ance by the New Edison. The absolute fidelity of the RE-CREATION to the artist's original peformance astounded the listeners.

Make the Rachmaninoff comparison. It will guide you right in selecting your Christmas phonograph.

Ask also about our Budget Plan

It brings your New Edison for Christmas without squeezing your pocketbook. Remember, too, that, in buying a New Edison now, you are virtually buying a before-thewar-value with an after-the-wardollar. The price of the New Edison has increased less than 15% since 1914, and a portion of this increase is war tax. "Edison stood the gaff" to keep his favorite invention within the reach of every one who loves beautiful music.

Converts Being Made To Constructive Side

New York, December 2.-Each day Wall street witnesses converts to the constructive side of the stock market. Today one large well-known house which for weeks past has been advising its clients to sell, sent out the following message: "We believe that the decline in prices of securities has discounted any business depression and that a number of securities can now be purchased below their intrinsic value. We look for a substantial recover and advise the purchase of the following stocks." A list of a number of rails and industries was then given.

Close students of the stock market are growing to the belief that the technical condition which exists today is exactly the same as existed at this time last year with the difference—a year ago the market was honeycombed with accounts that showed large profits on the long side which traders stubbornly refused to take because such profits would be divided with the government; today huge profits been piled up on the short side of the market and traders are again stubbornly refusing to take them. What happened a year ago was that many traders saw large paper profits on the long side wiped out. Today predictions are being made that the technical conditions in the market warrant an advance which, if started, will wipe out a large part of the profits.

Take Losses for Tax Purposes.

In addition to the large outstanding stubborn short interest many large holders of stocks have taken losses for income tax purposes and have not repurchased. If a stampede of the shorts can be accomplished this rebuying by important interests will begin. Thus a technical oversold condition exists that is not likely to be overlooked. The thing that usually happens in the stock market is the very thing that the large majority of traders do not expect.

The advance in prices which started during the last hour yester-day was carried on today. There was an irregular opening with only day was carried on today. There was an irregular opening with only fractional changes; then there was a decline with the rails on the Little Change Shown whole, losing less than a point. After noon there was an upward movement that enabled most stocks to close above last night. Southern Pacific was an exception. That stock was weak.

Southern Pacific was the stock most discussed in today's market and the action of those shares showed that Wall street was still uncertain as to the value of the melon cutting just announced. On very heavy trading Southern Pacific which closed at 1091/2 opened at 1081/2 dropped to 106% before noon and then recovered. At the same time the Rights which closed last night at 23½ dropped to 21 and then redovered to 23 while the shares of the new Pacific Oil company opened at 33, advanced to 38 and then dropped back to 36. It is plain that Southern Pacific is going to get \$43,750,000 for its oil lands through offering stock of the new Pacific Oil company to its shareholders. The unknown quantity in the whole situation is whether or not the new oil company can pay a dividend and what rate can be paid. That is the key to the whole question and so far speculative Wall street has not been able to find it.

Saxonia Brings Load of Gold.

The Cunard liner Saxonia arrived here today from London with 153 boxes of gold aboard. The object is probably to establish credits and straighten out the foreign exchange situation. This would help

A stock dividend of 12 per cent was declared today by the American Steel Foundries company. The regular quarterly dividend of 90:3.5 a share was declared on the common stock. The new stock

will not share in this dividend. Mexican oil shares were very strong today. The directors of Pan-American are expected to increase the dividend within a few days from 6 per cent to 8. There is also some talk that President Wilson is going to make a desperate effort to clean up the Mexican situation before he leaves office. A proper understanding between this country and Mexico in the near future would be a great incentive to oil people and to business men in general. Such a move would also increase our foreign trade.

Government Withdraws Deposits.

The government withdrew \$12,000,000 deposits from the banks here today. This is the second large withdrawal this week. In its annual report today the interstate commerce commission announced that 140 railroads had applied for loans from the \$300,-000,000 revolving fund provided by congress in the new transportation law to tide the carriers over from government to private conrol and that of these applications 36 had been approved in part and two declined. The total loans aggregating \$115,767.000 were made as follows: \$57,790,000 for maturing obligations, \$28,-

gas corporations. Since the signing of the armistice new oil and gas companies have been formed with total capitilization of no less than \$6,482,059,000. For the month of November the falling off in capital of new oil and gas companies was \$224,000,000 from the \$490,-000,000 of November, 1919.

In its monthly discussion of trade conditions the federal reserve bank of this district states that commodity prices in Great Britain are down from 10 to 14 per cent from the peak touched early this year; that prices in Canada are down 11 per cent; that prices in this country are down from 13 to 33 per cent with a substantial part of the declining occuring during the past 60 days. This means that we are closer to the end of readjustment than the other countries named.

AMERICAN EXCHANGE.

New York, December 2. — The cotton market was very irregular today as indicated by the course today as indicated by the course of January contracts, which broke from 16.45 to 15.75, rallied to 16.34 and closed at 15.94, or 14 points net lower. The general market closed easy, net 14 points lower to in part and two declined. The total loans aggregating \$115,767,000 were made as follows: \$57,790,000 for maturing obligations, \$28,-696,000 to help pay for locomotives and cars, \$29,278,000 for additions and improvements. Congress was asked for legislation that would get around the ruling of the treasury to hold up guaranteed net income of the railroads under the extended six months period pending a final settlement with the government of all claims.

Today's budget of news from industrial companies includes such litems as the closing down for an indefinite period of the Brunswick-Balke-Collender company which was employing 500 men; adoption of a one and two-day week by four Holyke mills of the American Thread company, 2,000 men to be affected; curtailment of 25 per cent of normal output by New England cotton mills; closing until after the first of the year by Toledo manufacturers of automobile parts, of the situation: It is added that while labor is not sustaining wages it is keeping up the cost of goods and that "any such attempt is destined to break down because it cannot produce the desired results."

New Companies Organized.

Figures came to hand today showing that during the month of \$100,000 or over having total capital of \$\$95,563,000 the smallest menthly total reported so far this year. In November of last year the figures were \$1,341,000,000; for October of this year \$1,179,000,000.

For the eleven months of 1918 the total capitalization of new companies was \$2,249,798,000; for the corresponding period of 1919 the figures were \$1,341,000,000; for 1920 \$12,128,000,000. Details show that the greatest falling off of newly incorporated companies is in oil and gas corporations. Since the signing of the armistice new oil and gas corporations. Since the signing of the armistice new oil and gas corporations. Since the signing of the armistice new oil and gas corporations. PROFESSIONAL VIEWS ON COTTON SITUATION

Market Very Irregular,
With Close at 14 Points
Down to 10 Points Up.

There can be no doubt about the increasing interest in the buying of cotton by Europe as evidenced in the contracts they are ports of a better spot demand in the south.

The market seems to be on a scalping ground.

ORVIS BROTHERS & CO.

New York, December 2.—(Special.)—
Manchester advices indicate poor trade and state that mill operations are to be limited to three days a week. The Bank of England reserver ratio is now down to 7.9 per cent, which must be regarded as a trade caution.

New York, December 2.—(Special.)—As to the immediate future of the market the southern offerings will probably govern prices, but regardless of intermediary market movements we feel that conditions are becoming more stabilized and strongly advise purchase on all setbacks such as that advise purchase on all setbacks such as that experienced today. JOHNSTON BROS.

New Orleans, December 2.—(Special.)—
Now the situation looks more unfavorable
than ever especially regarding the situation abroad, because if British spinners flud
it necessary to reduce consumption of American cotton in British Isles by one-half it
would indicate that the British trade outlook is very bad indeed.
However, there is some consolation in the
fact that central Europe, especially Germany, is taking more largely of American
cotton this season, as exports from the
United States of late have been for the continent principally.

New York, December 2.—(Special.)—We
think this advance will not be permanent,
but advise that one take on small quantities of cotton on any sharp decline and sell
for quick profits on any sharp advance.

HUBBARD BROS, & CO. New Orleans, December 2 .- (Special.)-

Hesitation, Heaviness, Firmness and Intermittent Strength Are Displayed - S. P. Stocks Rule Low During Whole

New York, December 2 .- The suc essive stages of today's active stock market were characterized by hesitation, heaviness, firmness and intermittent strength, selling for profits, however, materially reducing many gains at the irregular close. Fruition of the so-called Southern Pacific "melon" overnight seemed to exercise little influence, Southern Pacific opening at a loss of 13-8, extending this to more than 3 points at midday and displaying further heaviness later when the balance of the list tended toward higher levels. Its final quotation of 105 1-2 showed a net loss of 45-8 points. market were characterized by hesi-

points.
"Rights" to Southern Pacific rose and fell within a narrow radius of yesterday's closing price of 23, and shares of the Pacific Oil company, which is to take over the oil lands of Southern Pacific, were quoted on the "when issued basis" at 30 to 35.

the "when issued basis" at 30 to 35.

Associated Oil, whose shares are to be merged with Pacific Oil, showed an early gain of 4 points, a small part of which was forfeited later, other oils were fractionally lower in the early part of the session, but became the strongest features later, notably Mexican Petroleum and the two Pan-American Petroleums, in which final prices showed gains of 3 1-2 to 4 points.

Among steels, equipments, coppers and unclassified specialties there was no definite trend until after midday, when advances of 1 to 3 points were scored, pr bably at the expense of the shorts, ho also suffered in the rise of s. ppings. Tota' sales amounted to one million shares. The money market pursued an even course, all call loans being again made at 7 per cent, and most time loans, chiefly for moderate sums, at 7 to 7 1-2 per cent. Foreigr exchange presented no especial feature, but the low ratio of liability reserves reported by the Bank of England was a matter of general comment.

New York, December 2.—The local market for raw sugar continues quiet and as there were no sales reported, prices were nominally unchanged at 4%c for Cubas, cost and freight, equid to 5.76c for centrifugal. The only change in refined was the anouncement by one of the leading refiners, who had been out of the market for a week or more, that he was again in the market at the D-cent level for sugar on hand and that he was able to make prompt shipment. Prices were unchanged at 8.75 to 9c for fine granulated, with the demand still light and of a hand-to-mouth character.

The failure of any definite announcement in connection with the Cuban loan situation after the meeting of leading bankers led to some scattered selling in the sugar futures market and prices at one time were 18 to 24 points net lower, although near the close there was a slight raily on covering, with final prices net 13 to 18 points lower. Coffee. New York, December 2.—The market for coffee futures opened at an advance of 3 to 5 points and sold 16 to 20 points net higher during the morning on covering inspired by a raily in Rio exchange rates on London and reports of a better feeling in securities and other commodity markets. There was realizing on the advance to 7.40 for March contracts, however, and the market later lost a good part of its improvement owing to rumors of a decline in Rio exchange and ensier cost and freight offers. March sold off to 7.25 and closed at that level, with the general market closing net 3 to 7 points higher. SENSATIONAL RISE SHOWN IN WHEAT

Anxiety Regarding Overbuying by European Houses Causes 11-Cent Advance in Some Cases. Corn Follows Rise.

Chicago, December 2.—Anxlety as to whether European buying of wheat in the United States has not already been overdone led to a sensational advance in prices today. The market jumped up 11 cents a bushel in some cases, and closed unsettled at 6 1-2 to 9 3-4c net gain, with December \$1.69 to \$1.69 1-2 and March \$1.64 3-4 to \$1.65 1-4. Other leading staples, too, all finished higher—corn up 1 7-8 to 3 3-8c; oats, 1 3-8 to 2 1-8@1-4c, and provisions 20 to 75c.

According to an estimate by one of the leading firms on the board of trade, there remains in this country at present only 60,000,000 bushels available for export and for July 1 carry-over, after allowing for domestic needs, whereas the usual carry-over alone is 75,000,000 bushels. With attention chiefly focused on this estimate, a general stampede to the bull side of the market began today as soon as business opened. Bullish sentiment was further emphasized by a report that the bulk of the new Australian crop had been purchased, that Argentine harvest weather was unfavorable. Much notice was also taken of a "buy a barrel of flour" movement, and of the fact that the convening of congress on Monday would be followed by the introduction of many bills designed to afford aid to farmers. Flurried purchasing lasted throughout the day, but lessened somewhat in the final half-hour. The most urgent demand was said to have come from a New Yorker, who has of late been prominent as a bear.

Corn and oats rose with wheat and as a result of smallness of receipts.

ceipts.

Provisions were strengthened by the grain advance and by firmness in the hog market.

The Present **Bond Market**

In the latter part of May of the present year, many railroad and utility bonds, as well as Libeaty bonds reached the lowest prices in their history. At about the same time it became quite apparent that consumers were beginning to curtail their purchases and consumption of commodities. Since that time prices of goods of almost all kinds have fallen rapidly, attended by substantial advances in prices of securities bearing a fixed rate of interest.

We have prepared a booklet we have prepared a bookiet which discusses the recent decline in commodity prices with the accompanying advance in bond prices, copies of which we shall be glad to send to investors upon re-

The town is not nearly as wide open on Saturday nights as it was in the days when you could have a whisky hang-over in your room instead of in jail, but it's going to be hard to tell the difference next Saturday night when the cage season opens.

For Johnny Westmoreland and his male quartet of able assistants who annually snap forth as a paragon for southern basketball gangs, representing the Atlanta Athletic club, are milling their molars for the operation of the spattered enthusiasm throughout the south last winter was a great hunch and will find the beginning of its results in this was a great hunch and will find the beginning of its results in this year's season. This year it happens in Kansas City, and the Atlanta quint will work their souls out and soles off for the opportunity to make that jump. It's been promised them, if their record deserves it, and you're not bucking up against a wire-tapping syndicate if you bet thy will.

There'll probably be quite a bit of confusion Saturday night among the fans, but they will get over it.

Might Punt at That.

gates of the league of nations to Uncle Sam.
Johnny, who will lead the crew on its assaults on the quivering quintets it will meet, has practically forgotten that he's a blamed good lawyer, and has been practicing more basketball than law. If any thick-chested gent ever was a natural cage player and needed less practice than any one else, that's Johnny. And the rest of the team has been taking the proper means toward finding itself. So the vermillion of condition is assured. Might Punt at That.

For instance, some one is apt to wonder why in the mischief the Clemson team doesn't punt when the ball is under the Athletic club's goal. Another is liaile to think the referere batty when he throws 'he ball up in the air and blows his whistle. Seventeen maids who have just this year become football fannettes will ask thirty-four males what down it is. Everybody will call halves quarters, and 50 per cent of the spectators will expect a kick after goal. But that's all right.

It's a man's game, and, by the way, it is not nearly so necessary to repeat that slogan now as it has been in the few years just past. Might Punt at That. New Ray of Light.

Even, however, if they don't get conditioned, there's a new ray of light for this season. The rules committee of the game, whoever they are, have up and ordained that a player may be snagged from the game in its duration, and later be reinstated—once. Quite a departure for the game, and will allow those veterans who have formerly taken 40 years to pull themselves away from the high-powered lure of the game to last 50.

Another little transformation in been in the few years just past Howard Cann, the New York univer sity star, our own huskies and the rest of the flock who made welkin ring in the Auditorium armory last March have helped that along, and game to last 50.

Another Jittle transformation in the rules, which will work for the good of the runts who are hardbolled enough to stand the gaff of being slammed indiscreetly against hard walls and harder floors, is that you won't go wrong if you expect the heartlest sort of co-operation from the town with the charges of Joe Bean during the season which will outlast 1920 and will lap over into 1921.

DOUGLAS AGS AWARDED LETTERS AND DUBLIN FOR SEASON'S WORK

Charlottesville, Va., December 2. (Special.)—Seventeen letters were awarded University of Virginia football players by the General Athletic association here today, in reward for the past season's gridiron work. Virginia concluded her season with five victories, two defeats and two ties.

Those receiving "V's", Included Captain Hewson Michie, Hollis Rinehart, Jr., and L. F. Hankins, of Charlottesville, Va.; J. W. Dunn and Sam B. Witt, of Richmond, Va. school is to play bougher agent as the fair Ground here at 3 o'clock.

Dublin played the entire season without being defeated and this post season game was arranged when Douglas made claim to the prepchampionship. The Aggies outweigh Dublin considerably; have a heavier line and if they develop speed with this weight, will have the Green Hurricanes at a disadvantage. Another thing that might count, before the game is over, is the fact that Kendrick, one of the fastest men on the team, playing right halfback, has a foot that has been giving him trouble since the game on Thanksgiving day, and may not be able to do his best in this game. With all this, however, the Dublin team is going into the fray with thorough coaching, much speed and a determination to win.

They have a hard line to break, a quarterback who has more than the average amount of football brains, with a bad habit of getting through anybody's line that happens to be in front of him.

There are others on the team, too, who will put up a real fight and Dublin is preparing to turn out and see a hard-fought game. It was stated that \$250,000 was available as a guarantee, and Rickard was requested to meet and discuss the matter with a representative of the Canadian syndicate.

Chicago, December 2.—The finals of the world's three-cushion billard championship tournament starts next Mohday, Turnament Manager W. V. Thompson announced today. The three leaders of the preliminashes, which will be condluded tomorrow, will meet Robert Cannefax, champion, for the title. In the finals, each man plays each of the others once and the one with the best percentage becomes champion, it is ruled.

With Augle Kleckhefer, of Chicago, and Pierre Maupome, of Milwaukee, left on the schedule. Charles Layton, St. Louis, is practically assured a place in the finals. He leads, having won eight and lost only one game.

The five men trailing Layton are still in the running, Clarence Jackson, of Kansas City: Alfred De Oro, Maupome, Kleckhefer and John Daly, of New York. a representative of the Canadian syndicate.
Rickard said he would arrange for a conference in the near future, but that no definite plans had been made for staging the international titular battle at any particular place. Under the contract signed by the promoters and the two pugilists, the bout can be held anywhere in the United States, Canada, Mexico or Cuba, providing the principals are given sufficient notice of the site to arrange for proper training facilities. facilities.

It again was intimated today by the chief promoter that in case it was found inadvisable to hold the contest in or near New York city, the match would, in all probability, be staged in London, where Carpentier is a popular pugilistic idol and a great drawing card.

When it was pointed out to Rickard that the existing contract did not cover a ring encounter in Europe, he stated that both Managei Kearns and Champion Dempsey had agreed to sign a new contract including such venu. Should the emergency arise, it is quite likely that instead of Dempsey receiving \$300,000 and Carpentier \$200,000, the boxers will agree to battle for a percentage of the gate receipts, which are estimated as likely to run into hundreds of thousands of dollars with the fight staged in London.

Conway, a former president of the New England Amateur Athletic union, said today that financial men of the city were prepared to open negotiations with H. H. Frazee, the present owner. If consummated the deal probably would result in an attempt to bring back to playing management of the Red Sox, William F. Carrigan, now a banker at Lewiston, Maine, who led the league team to world series honors in 1915 and 1916.

Conway would be president of the club under the proposed plan for changing ownership and associated with him would be Major Frank Cavanaugh, the Boston college footbal coach. Conway has been a long time friend of Carrigan and has been regarded by sport followers as more likely than any other man to induce Carrigan to return to baseball.

"Atlanta's Blind Paderewski," appearing as a special added attraction on the bill at B. F. Keith's Lyric for the week-end bill, exhibits a brand-new stunt which he calls the suoreme memory test in addition to playing superbly on the plano, with the result that he clearly gains headline honors on a bill that is unusually attractive.

Mr. Donehoo actually memorizes about fifty figures and keeps them in order, arranging them from a mass of numerals given him by members of the audience. The stunt is undoubtedly a wonderful exhibition of concentration, and, with his playing, wins tremendous approval.

Claudie Coleman, presenting "femine types," proves to be an impersonator of unusual cleverness. Her act is a genuine laugh-getter, and she was forced to take two encores Monday afternoon.

Other acts include Mabelle Fonda and company, a trio of the best jugglers seen here in many months; Johnny Dove, billed as a Scotch minstrel, but who shines as a clog dancer; Scamp and Scamp, who pull off a very near acrobatic turn, and Chief Little Elk and company, in which the scenery and stage effects are splendidly arranged.

The usual run of news and feature pictures completes a very strong program of entertainment.

The heretofore unearned distinct tion of "stopping the show" at each and every one of the three performances on opening day fell to Harry Hines, six-cylinder monologist who tops the program at Loew's Grand for the week-end. the house continually Thursday and he literally had to beg to leave the stage.

And to crown this individual triumph, Hines bobs up a few moments later in the offering of the Gypsy Trio, interpreters of the fast and furious Russian type of stepping. His impromptu burlesque of these artists was entirely too funny a proposition to describe. Hines presence converted an already splendld act into a riotous success.

The whole show for the first half of the week at the Grand touches a high level of excellence. To begin with, The Jack Gregory Trio appear in front of an almost classicly beautiful background and then carry out an ingenius exhibition of deft hoop-rolling and other destrous feats. "Superstition," a farce located in an undertaking parlor, gives the burnt-cork member of Bond, Berry and company swonderful chance for mirthful character delineation. Ector and Dena, a mixed duo featuring Italian harmony, have a refreshing repertoire of vocal and instrumental numbers.

Skilfully plotted, studded with the most exquisite of melody, with the most exquisite of melody, with the stage control of the east. Skilfully plotted, studded with the most exquisite of melody, with the production to be given here is absolutely new, its stage investiture and costume embellishments being of the latest modes and a pictorial beauty that appeals to the eye. Sam Sidman, an actor and comedian of high standing, will play the role of "The Bish," and George Lydecker will be the Lord Wetherell. "The Rainbow Girl" will be sung by Katherine Shaw, whose fine soprano voice has brought her genuine distinction. Gene Carlson and Johnnie Jordan are two clever young women who have singing and dancing roles that they handle so celeverly as to charm the ear as well as the eye. Joseph Danlels, Sam Collins, Frank Farrington, Jane Burby, Margaret Mertiman, John Ellis and Julie Eastman are other capable players that make up the roster of this joyous entertainment. The big chorus is comely, "graceful and possesses good voices. The orchestera will be under the skilful direction of the master director, Fred Solomon.

"Atlanta's Blind Paderewski," ap-

"Sweet Lavender."

(At the Forsyth.)

Sir Arthur Wing Pinero's "Sweet Lavender," one of the English dramatist's most appealing plays, is at the Forsyth for the rest of the week. It is a Mary Miles Minter starring production for Realart. Realart has done a very splendid thing in preserving practically intact the full, wholesome savor of the original play. Some sileth changes were necessary to adapt the Euglish ziory to American audiences, but they are of a nature that add rather than detract. A delightful comedy is, the result. Miss Minter shows that she combines real ability with her beauty in the character of Lavender. The story concerns a girl whose happiness is menaced by her own father, who, ignorant of her identity, refuses to allow her engagement to his stepson. The famous character role of Phenyl is well interpreted by no less a personage than Theodore Roberts. Mr. Roberts gets the last ounce of "meat" from this very lovable part. Sylva Ashton is excellent, as usual, in the role of a rich vulgarian. Haroid Goodwin makes an attractively youthful college lover. In the role of Horace Weatherburn, the father. Milfon Sills, upholds bis reputation as one of the best and most versatile players in filmdom. **ABOLISH**

Used Cancelled Bonds To Get Loan of \$10,000 From Chattanooga Bank

Chattanooga, Tenn., December 2 S. S. T. Kimball, of Deer Lodge, Tenn., charged with obtaining \$6,-000 from the Hamilton National bank, of this city, under false pretenses, demanded immediate trial when his case was called in criminal court here today, but the state secured a conviction plea of absence of witnesses.

Kimball last July presented twenty bonds, each of a face value of \$1,000, issued by the bankrupt hicago, Rock Island and Pacific railroad, to the bank officials as collateral and was allowed a credit of \$10,000, of which sum he checked out \$6,000. Later it was found that the bonds deposited had been canceled by the receivers of the railroad and a search was made for

Paints

There is a way to paint floors, so they will stand wear and tear a lot longer, than if you paint them some other way. You know some think, that all there is to having a good painted floor, is buying a good floor paint and then having the floor painted.

That's only a small part of it. It's the reason why so many good floor paints turn out so poor. Not that having

Mahoney Is Drowned When His Automobile Plunges Off Docks

Tampa, Fla., December 2.—J. T. Mahoney, prominent clubman and one of the most widely known furniture dealers in the south, was drowned at midnight when the automobile which he was driving ran off the foot of the Mallory steamship docks. Charles J. Smith, of St. Petersburg, who also was in the car, saved himself by jumping. The accident was due to an attempt of Mr. Mahoney to turn on the dock, which is poorly lighted, and which resulted in the car striking a runway, according to Mr. Smith years president of the Tampa Yacht and Country 'club and captain of Y. E. Mystic Krewe of Gasparilla, which holds an annual pageant there. Geneva, December 2 .- Article 10 of the league of nations covenant does not guarantee the territorial integrity of any member of the train. league, according to the first official interpretation of that article by the league, unanimously adopted by the commission on the admission of new states. This declaration is generally regarded as one of the most important decisions yet taken by the league members. The interpretation was provoked

by the proposal of Giuseppe Motta of the Swiss delegation, who asked that if the present status of Austria were changed Vorarlberg be permitted to join Switzerland. The text of the interpretation follows: "We cannot recommend the adoption of the proposal, put forward by M. Motta. We are indeed of the

WILSON YACHT OFFER DECLINED BY HARDING

Washington, December 2.—Senator Harding declined today President Wilson's offer to place the presidential yacht Mayflower at its disposal next Saturday on his arrival at Norfolk to carry the president-elect to Washington. It was necessary, the senator said in a radio message to Secretary Daniels, who transmitted the offer yesterday to the steamer Pastores, that he should make the trip by rail. The senator's message, as made public by the navy department, follows:

"Please thank the president for Mayflower tender. Am obliged to travel to Washington by rail. My grafitude to you."

Steamer Battles Head Winds.

On Board the Steamer Pastores, December 2.—(By the Associated Press.)—The steamer Pastores, with President-elect Harding on board, this evening was proceeding northward off the Atlantic coast—at a speed which made it doubtful whether her officers would be able to realize their hopes of docking the vessel at Norfolk early in the forenoon of Saturday.

moon of Saturday.

Most of today the steamer battled head winds and a moderate sea and at nightfall was opposite the North central Florida coast, about 200 miles at sea.

miles at sea.

Notwithstanding the constant rolling of the ship, Mrs. Harding, wife of the president-elect, remained on deck during the afternoon and evening. She said she felt weak, but more comfortable than at any time during the voyage. more comfortable than at any time during the voyage.

She expressed the bellef that she would be in perfect health before reaching port. During the day Mr Harding worked a part of the time on the speeches he will deliver at Norfolk and Bedford, Va. Nevertheless, he took time off from his labors to play his daily game of shuffle board.

FIFTEEN CASES OF BONDED LIQUOR Do It Now

Mobile, Ala., December 2.—One of the most spectacular liquor raids yet recorded in the state of Alabama was staged today when Sheriff W. H. Holcombe, Jr., assisted by a force of deputies, boarded the steamship McCreary County and confiscated fifteen cases of bonded whisky. Sheriff Holcombe and his men by the aid of searchlights detected a straw sticking out near the top of the mast. Deputies climbed to the top and discovered the cases suspended by ropes.

TROOPS ARE ORDERED TO ALABAMA MINES

Haleyville, Ala., December 2.—
State troops have been ordered to the mines of the Gen Mary Coal company at Glen Mary, five miles south of Haleyville, following the blowing up of the hoisting machinery at the mines this morning, and the destruction of a dwelling house by fire.

C. Shafer was arrested shortly after destruction of the machinery on a charge of arson. The mines have been closed for a week on account of a strike which has been in force for that length of time. This is the first mine trouble in this section of the state. Shafer will be given a preliminary hearing here Saturday.
